

Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Wednesday 24 Feb 2021

++ Valid for broadcast between 1800 and 0600

Headline:

Rain clearing southeastwards. Turning much more settled.

This Evening and Tonight:

Rain across southern Scotland, Wales, northern and western England, heavy at first, moving southeastwards and turning more patchy. Clearer skies following with frost in sheltered spots, and a few showers in the northwest.

Thursday:

Cloud and rain slowly clearing from southeast England. Dry with sunny spells for most parts, though showers affecting the northwest.

Outlook for Friday to Sunday:

Aside from some rain in the far north/north-west on Friday, widely settled with light winds. Sunny/clear periods in the south, often cloudier in the north, with some patchy drizzle. Mild.
